

PATHWAYS 360°

Finishing School Program for **Healthcare** Professionals

Pathways 360° is a finishing school program tailored for final-year nursing students, preparing them for job placements, higher studies, and professional life. It combines advanced communication training with modules on personal grooming, digital professionalism, resume building, and interview readiness. With a focus on real-world application and mentorship from industry experts, Pathways 360° ensures students step confidently into their careers with the skills and mindset needed for success.

Pathways 360° - Key Features

 **Self-paced learning with Assignments** : Students can progress through each module independently, completing reflective tasks and skill-building exercises designed for final-year learners.

 **Year-long Access** : Full access to all modules and resources for one academic year, allowing students to revisit key concepts and strengthen learning at their own pace.

 **On-campus Mentor Training** : Faculty members or select students can be trained as campus mentors, creating a peer-guided support ecosystem for enhanced engagement.

 **Career Readiness Focus** : The program builds critical skills in communication, leadership, productivity, and personal branding – aligned with campus placement needs.

 **Periodic Live Sessions with Experts** : Interactive sessions led by professionals from education, industry, and life coaching to offer real-world insights and deepen skill application.

 **Portfolio Building** : Students work towards developing a personal portfolio including vision maps, resumes, presentation decks, and digital content samples.

 **Individual Attention for CV Building** : Focused guidance to help each student create an effective and personalised CV, aligned with their goals and strengths.

Equipping **Caregivers** with **Confidence**

Pathways 360° - Modules

- **Me 360°** (7 Hours): This self-leadership module helps students gain deeper awareness of their strengths, habits, and aspirations. Sessions include *You. Decoded.*, *Map Your Vision*, *Disciplined by Design*, *The Power of Yet*, and *Productivity Power-Up* equips them with practical tools to manage time and energy effectively.
- **The Thinking Blueprint** (4 Hours): Focused on building cognitive flexibility and decision-making skills, this module empowers students to think critically and creatively. Topics include *The Logic Lens*, *From Info to Insight*, *Decide Like a Pro*, and *From Problem to Possibility*.
- **HQ – The Human Quotient** (3 Hours): This module offers tools to enhance mindfulness, resilience, and emotional regulation through sessions like *EQ Toolkit*, *The Calm Code*, and *Master the Moment*.
- **My Message. My Voice.** (7 Hours): This high-impact communication module builds verbal and non-verbal fluency. Learners develop clarity, confidence, and presentation skills through *The Communication Bridge*, *The Speaking Edge*, *The Unspoken Edge*, and *Slide Right*. The focus is on preparing students to articulate ideas effectively in both formal and informal settings.
- **The Leader Within** (2 Hours): In this module, sessions like *Step Up & Lead* and *From Me to We* help students understand collaborative leadership and influence-building in real-world contexts.
- **Career Confidence** (7 Hours): This industry-readiness module helps students shape their personal brand and prepare for emerging career landscapes. Sessions such as *You, the Brand*, *Be Seen*, *Be Chosen*, *Your Career Map*, and *Leveraging AI – Create & Automate* provide guidance on navigating interviews, building digital presence, and using AI tools.
